Leader

Regione Marche (Italy)

Partner

Ente Autonomo Volturno s.r.l., Regione Lazio (Italy), Hellenic Small Island Network, Region of Ionian Island (Greece), Larnaca District Development Agency (Cyprus), AFT (France), Paragone Europe (Malta), The Porto of Bar (Montenegro) Valencia Port Foundation for Research, Promotion Commercial Studies of the Valencian Region (Spain).

Theme

Study of shared strategies to increase the competitiveness of the maritime transport connection system in the Mediterranean Sea while developing connections between main regional ports and Trans-European Network of Transport.

Achievements

Development of a strategy to facilitate the creation of lines connecting the main regions of TEN-T Trans-European Network, definition of a shared development policy of networks and infrastructural investments, analysis of the global maritime market and commercial trade in the Mediterranean Sea. Identification of the initiatives aimed to facilitate the competitiveness between ports, the development of transport and logistics as well as the identification of possible financial resources aimed to create strategic infrastructures. Creation of a “Road Map” of priorities for the development of each identified scenario.

The total cost of the project was € 1,399,172.00, whereof € 90,355.00 from Regione Lazio which were completely spent.
