Good practices for the landscape (2005-2007)

(2005-2007)

www.paysmed.net

Leader

Junta de Andalucia (Spain)

Partner

Regione Lazio - Regional Directorate for Territory and Urban Planning, Regione Sardegna, Regione Basilicata, Regione Emilia Romagna, Regione Lombardia, Regione Piemonte, Regione Toscana, Regione Umbria (Italy), Préfecture De Magnesie Développement Compagnies (Greece), Comunidad Autonoma de la Region de Murcia, Generalidad Valenciana, Generalidad de Catalunya (Spain), Région Provence Alpes Côte d'Azur (France).

Theme

The project addresses the issue concerning landscape and offers a comparison of the actions and / or activities made by the partners while creating a single portal and a shared collection system of spatial information for Medoc area.

Achievements

Experiences exchange among all the stakeholders (local administrators, technicians and other professionals) who work for landscape management. The project was carried out aiming to perform four tasks: Observatory of Mediterranean landscapes, Mediterranean Landscape Prize, Catalog of Best Practices through which it is possible to make an observation of the identifying characteristics, processes and risks taking place in the Mediterranean landscapes. Finally, the Guidelines were designed not only to continuously monitor the changes taking place, but also to raise awareness about the identity of the area.

Total cost of the project € 1,684,750.00. Regione Lazio had € 70,522.49 of which € 35,261.25 FEDER funds (50%), € 35,261.24 CPN funds (50%) and a regional co-financing of € 2,479.36. The project was completed and administratively closed with the Determinazione Dirigenziale (Managerial Decree) no. A02863 dated fifth of April 2012.
