

PORTNETMED PLUS

(2003-2005)

www.portnetmedplus.it

Leader

Regione Liguria (Italy)

Partner

Regione Lazio - Regional Directorate for Infrastructure and Transport, Regione Sicilia, Regione Calabria, Regione Campania, Regione Toscana, Regione Sardegna, Regione Piemonte (Italy), Comunidad Valenciana (Spain), Languedoc-Roussillon Region, Collettività Territoriale de Corse (France), Ministère des Transports - Office de la Marine Marchande et des Ports (Tunisia).

Theme

The project resumes the theme of Port Net Med (network of western Mediterranean harbours) Interreg IIC presented in 1998 and concluded in 2001. Purpose of the project is the creation of a structured system of relationships between public institutions, port authorities and economic operators of the Mediterranean harbours environment, through the creation of RICEM (Interregional network of Centres of Expertise/Excellence).

Achievements

Definition of a common strategy for harbours, operative management of the interregional network of centres of expertise composed by structures, tools and human resources coming from partner regions, implementation of promotion and communication initiatives, institutional lobby dialogue with European institutions involved.

Global cost of the project € 2,374,651.00 of which € 1,254,470.50 charged to FESR and € 1,120,180.50 of national and regional offset. Regione Lazio had € 202,840.00 and a regional co-financing of € 10,500.00.
