A fund of funds will entrust the implementation of FIs to financial intermediaries(s). The CPR does not define the modalities of entrustment by the fund of funds to financial intermediaries. Thus the MA can decide with the fund of funds on the specific form (and report it under option (c)) that this trustment can take as long as the ownership of resources contributed by MA (i.e. ESI Funds and national co-financing) and the risk of defaults at the level of final recipients stay with the MA and the ESIF programme resources can be traceable down to the level of final recipients. The following formulae are used to calculate achieved leverage for different products and taking into account respective implementation options. NB! The formulae for automatic calculation of achieved leverage by product (see below) will be applied in SFC2014 as of 2018 reporting exercise (data with the cut-off date of 31/12/2017) onwards. Therefore for the purpose of the reporting exercise 2017 (data with the cut-off date of 31/12/2016) the formulae for the automatic calculation of achieved leverage are applied at the fund level and are calculated as follows:
